TITAN SCAFFOLDING

TITAN SCAFFOLDING is a market leading brand of mini and tower mobile scaffolding designed for users in DIY through to any commercial application. Titan Scaffolding kits have been designed and engineered to the AS/NZS 1576.1:2010 scaffolding standards and is one of the only companies to provide towers with **ALL COMPONENTS TO MEET NEW SAFETY REQUIREMENTS** set by the New Zealand Government.

THESE INCLUDE:

- Kick boards for every platform
- Top and bottom handrails above every platform
- Fully decked platforms
- Outriggers with single width extension kits

All Titan towers come with industry standard walk through platforms and internal access ladders or end frame access ladders for safer, easier access for **SAFE ACCESS AND EASY INSTALLATION**.

All kits come in retail packaging for easy merchandising, transport and ease of use. All kits are under 5 meters in height so can be **ASSEMBLED BY ANY COMPETENT USER**, DIY or trade.

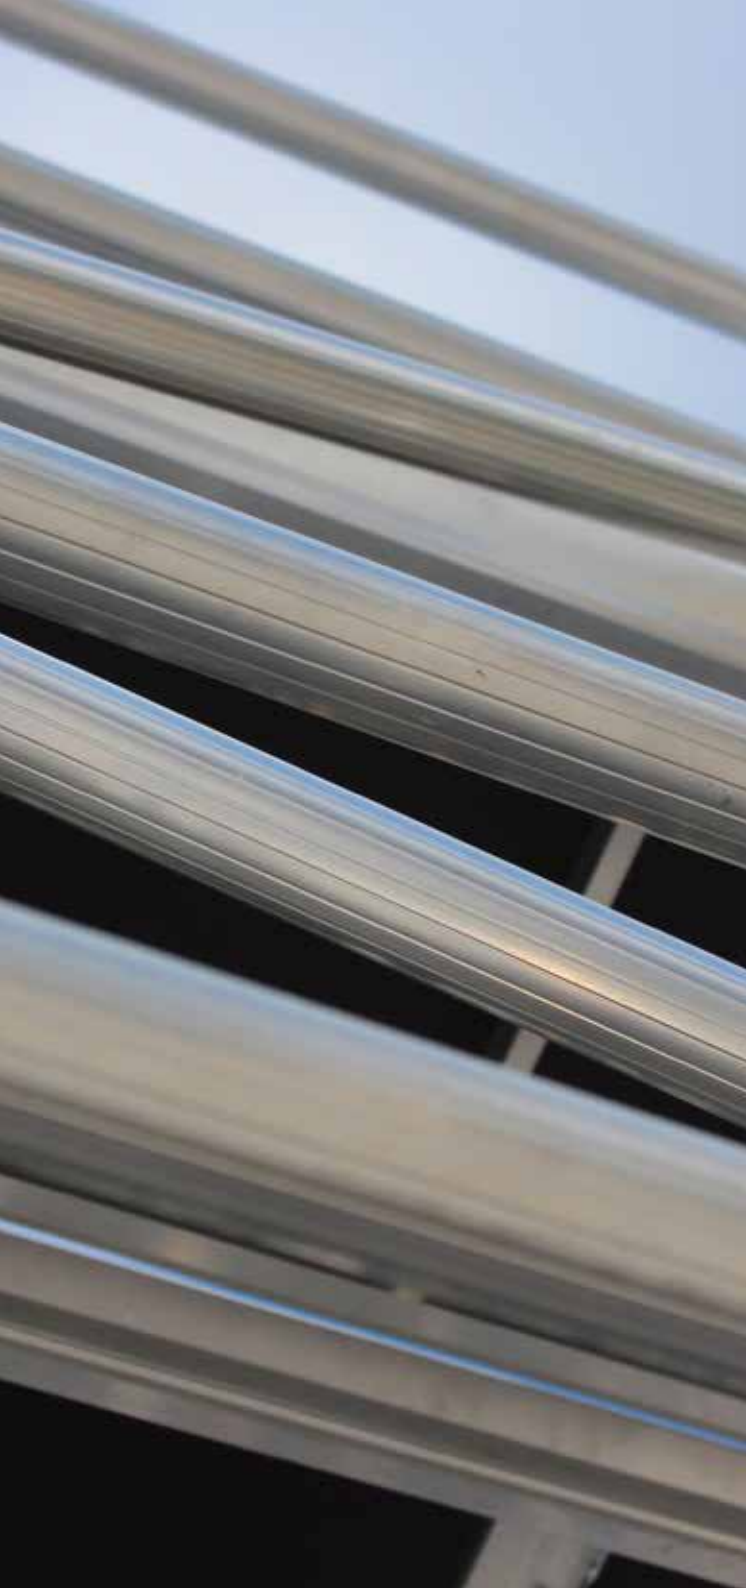

You can be sure no matter the site, your Titan mobile scaffold will meet the requirements and will **EXCEED EXPECTATIONS**.
